MRS. BOWIE IS FREED

"Unwritten Law" Is Claimed In Woman's Behalf.

JURY OUT ONLY 5 MINUTES

Mrs. Bowie and Her Son, Who Were Acquitted, Were Tried for Killing Man Who Is Said To Have Ruined Miss Bowie.

LaPlata, Md., July 15.—The jury in the case of Mrs. Bowie and her son Henry, charged with the murder of Hubert Posey last January, returned a verdict of acquittal Friday afternoon, before out in less than 5 minutes.

State's Attorney Wilmer's statement that the prosecution would be satisfied with a verdict of manslaughter was a surprise and was not in the demand of former State Senator Posey for the defense that the jury either acquit or find the accused guilty of murder.

Congressman Sydney E. Mudd, of counsel for the defense, in his address to the jury, disclaimed belief in the insanity of Mrs. Bowie or her son, though he declared that under the circumstances they could not be held responsible methods of legislation for their part in the tragedy.

Touching upon the unwritten law, Congressman Mudd said:

"The family is the shrine of ours as the nucleus and the nursery of the commonwealth. The protection of sanctity, the development and maintenance of a salutory and exalted respect for the honor of mother, the sister and the daughter becomes therefore a natural and essential feature of the law of this land. In nearly every state of this country there will be found an exemplification and recognition of this fact and an adoption of this doctrine. It is in this sense that I confidently claim the protection of what I have called the 'unwritten law' as an adequate defense for these defendants."

WILL HAVE TO CONNECT.

Southern Must Make Connection with McRae Terminal Agency.

Washington, D. C., July 15.—The interstate commerce commission in an opinion by Commissioner Prouty announced its decision in the case of the McRae Terminal agency against the Southern Railway company and the Seaboard Air Line railway.

The complainant, owning a railroad about one mile long from a point near the Southern railway, in McRae, Ga., to a point near the Seaboard Air Line, alleged that such railways decline to make connections with its physical connections at its terminal. The commission holds that no such connections are practicable, can be made with hazard to the public, and the complainants' prospective business is sufficient to justify the connections, the defendants should give complainant the physical connections asked for, but they should be made, at the expense of the complainant. A definite order is withheld pending action of the defendant carriers and the taking of further testimony.

GEORGIA LEGISLATURE.

Senator Felder Does Some Successful Filibustering.

Atlanta, July 15.—Friday the most successful effort at filibustering ever known in the senate of a senator of the state of Georgia was that of Senator Felder Friday morning which held the floor of the senate for nearly four hours, preventing the consideration of the penal code bill, which was reported by the committee with the recommendation that it do pass.

As varied as the articles in a country store was the legislation proposed in the house of representatives when some one opened the flood gates and a wave of new bills swept up to the clerk's desk to join the wilderness of measures already there which will never be put upon their passage.

Adams' Forgery Bill.

Representative Adams, of Chatham, told the general judiciary committee of the house the story of how an amendment to the cadet prosecution bill in the forgery act, and succeeded in having his bill to correct the error, given a favorable vote that it "do pass."

Mr. Cranman, of Coquitt, introduced a bill which is to carry into actual effect the provision of the Bell child labor bill. In it there is proposed the creation of the office of "factory inspector," with an annual salary of $1,200 per annum and expenses, whose duty it shall be to inspect those corporation plants where child labor is employed and see to it that this law is not being violated.

County School Commissioners.

Whether the county school commissioners of Georgia are to be elected by the direct vote of the people or continue to be elected by the county board of education, is the knotty problem with which the committee on education with Chairman Medlock presiding wrestled with Friday afternoon.

There has been much opposition to the present mode of making this choice in a number of counties, and the opposition crystalized into a bill proposing election by the direct vote of the people, and introduced by Mr. Wynne, of Madison, and referred to this committee.

Practically the entire time of the senate was devoted to the fight and consideration of the prohibition bill.

MET HORRIBLE DEATH.

C. E. Wynne Was Thrown Under a Moving Engine.

Macon, Ga., July 15.—C. E. Wynne, superintendent of construction for the night force of the Hall-Parker Construction company in the new yards of the Central railway in Macon, suffered a horrible death under the trucks of an engine tender that had left the track while in motion. The man was standin on the running board in the rear while the engine was being backed over some newly laid track, and in a moment the wheels struck the ties, throwing the man under the moving trucks and his body was crushed beyond recognition.

Life was extinct when the man was removed from under the tender. His body was removed and an inquest held. The jury held that the man came to his death while in the performance of his duties.

Negroes Would Become Elks.

Frankfort, Ky., July 15.—Attorneys representing the secretary of state of Kentucky, the grand lodge Benevolent and Protective order, has filed in the state fiscal court here an answer to a petition recently filed by the Falls City lodge No. 44, of the Improved Benevolent and Protective Order of Elks of the World, an organization of negroes, who are seeking to compel the secretary of state to issue to their organization a charter under the Kentucky laws.

New York, July 15.—Jewels valued at $20,000, it is announced, have been stolen from a private safe in the offices of J. M. Caballos & Co., bankers and brokers, who failed not long ago for $1,000,000. The jewels are the personal property of Mr. Caballos. The robbery occurred two weeks ago, but has been kept secret.

STATUE OF GARIBALDI.

Italy's Gift to France Unveiled With Imposing Ceremonies.

Paris, July 15.—A statue of Garibaldi, Italy's gift to the city of Paris, was unveiled Saturday in Lowendal square with imposing civil and military ceremonies in the presence of President Falleres, the cabinet ministers, the diplomatic corps and other distinguished persons.

Foreign Minister Richon, and General Canzio, Garibaldi's sons-in-law, made the principal addresses. The feature of the occasion was a defile before the monument of the French veterans of the army of the Vosges and deputations of Italian veterans who fought with Garibaldi in the defense of Paris during the Franco-German war of 1870-71.

The presence of the latter in Paris, where they are being shown much attention, gives to the French national fete, the anniversary of the taking of the Bastile which will be celebrated with the usual festivities and a review of troops at Long Champs, somewhat of a character of a Franco-Italian fraternization.

Morgan in London Court.

London, July 15.—J. Pierpont Morgan Saturday appeared in the West London police court as a witness in the case of Mrs. Josephine Leslie, who was arrested at New Market July 4th, charged with defrauding members of well known families by false pretenses and who represented herself to be a friend of Mr. Morgan. The latter repudiated all knowledge of Mrs. Leslie. He said he did not write to her advising her to join one of his syndicates and never invited Mrs. Leslie, as alleged, to dine at his son's house. As a matter of fact, Mr. Morgan added he was in New York at the time of the alleged invitation.

This Policeman Got Rich.

New York, July 15.—William S. Pendergast, who has been a policeman here for eleven years, has retired from the force, having made $500,000 in real estate speculation during the past few years. Pendergast has for some time been known as the richest patrolman in the metropolitan force. He is going to make a tour of Europe, visit his parents in Ireland and then come back and build a big hotel.

HAYWOOD'S TRIAL.

Prospect that Case Will Be Concluded Within Two Weeks.

Boise, Idaho, July 15.—William D. Haywood, on trial for the murder of Frank Steunenberg, Friday afternoon left the witness chair, after he had been under examination six hours in his own defense, the time being equally divided between his own counsel and Senator Borah, who conducted the cross-examination.

Haywood's testimony closes the defense. The state will now begin the rebuttal, unless motions to strike out certain parts of the evidence should be brought forward by the defense. Counsel for the state announces willingness to abide by the instructions to the jury by the court, and will not make arguments on motions to strike out.

There is a prospect now that the case may be brought to a conclusion within two weeks.

Cross examination of Haywood began an hour after the opening of court. Borah's cross-examination, always rapid, was more than usually quick, but from first to last Haywood preserved complete possession and control of himself. At times his replies came as quickly as the questions were flung at him. Again he would hesitate and speak slowly with a marked emphasis.

Much of Haywood's testimony was repetition in detail of what Moyer said. Haywood, however, made no effort to deny his knowledge of Orchard and his affairs or his connection with Simpkins. When pressed closely as to the passage of telegrams relating to the engagement of counsel to defend Orchard, Haywood admitted that he knew Simpkins had retained counsel, but that there was no record of any report from Simpkins to the Western Federation. Like Moyer, Haywood had heard Orchard make threats against Steunenberg, though he had heard of Orchard's assertion that Orchard had lost his interest in the Hercules [illegible] because of troubles in the Coeur d'Alenes.

IMPORTANT DECISION.

Supreme Court of Georgia Upholds Rule No. 1.

Atlanta, July 15.—The supeme court of Georgia rendered an importan and far-reaching decision Friday upholding the right of the state railroad commission to establish continuous mileage rates over two connecting lines, one of which is owned, managed and controlled by the other.

The decision was rendered in the case of the Wadley Southern Railroad company against Hill, and others, in which Judge George F. Gober, of the Blue Ridge circuit, held in favor of the contention of the railroad company against the right of such rates. The effect of Judge Gober's decision was, practically, to render null and void rule 1, of the railroad commission's traffic rules, which provides that where two connecting lines are under the same ownership or control, or where one owns a majority of the stock in another, the rates over such two lines shall be on a continuous mileage basis.

Charge of Attempt to Defraud.

Birmingham, Ala., July 15.—D. H. Kemp and G. L. Payne, well-dressed young men, were bound over here on charges of using the mails to defraud. They represented themselves as commission merchants and on handsome stationery invited the shipment of produce to them for which remittances would be made immediately. Complaints were made by Cullman, Ala., merchants that the remittances never came. Immense quantities of [illegible] and staples were located at the house where the men were staying. Among the articles was a huge box of silk neckties from an Atlanta firm.

A FATAL EXPERIMENT

To Advance Medical Science a Denver Physidian Dies.

WAS A PROMINENT SURGEON

To Learn the Effects of Anti-Toxin Upon Asthma, He Gave Himself an Injection and Fell to the Floor, Where He Expired.

Chicago, July 15—A dispatch from Denver, Colo., says:

That the cause of medical science might be advanced, and the condition of thousands of suffering asthmatics might be improved, Dr. W. W. Robinson, a well known physician and surgeon, Friday, gave up his life.

Dr. Robinson was 36 years old and one of the most promising young physician in the state of Colorado, deliberately experimented upon himself in Loveland with a dose of anti-toxine, and, as a result, a short time later he was dead.

Dr. Robinson was seized with an attack of asthma from which he had been suffering for some time. For several months he had been experimenting with anti-toxin as a cure.

Dr. Robinson said to Dr. M. M. Bailey, whom he had called, that it was a good time to learn the effect of anti-toxin and proceeded to give himself an injection.

Shortly afterward his face and lips turned black. He tore his collar from his neck, crying that he must have air, and in a few minutes fell to the floor dead.

Dr. Bailey asserted that Dr. Robinson died from a sudden attack of asthma.

CLEVELAND RECUPERATING.

He Is In Adirondacks Whipping the Streams for Trout.

New York, July 15.— A dispatch from Oswego, N. Y., says that former President Grover Cleveland, is recuperating from his recent illness at Redfield among the foothills of the Adirondacks. Mr. Cleveland is the guest of John B. Davidson, a New York millionaire, and he has entered with enthusiasm into the sole diversion of whipping the streams for trout on the Davidson estate.

While the effects of Mr. Cleveland's recent illness are apparent, his love of angling has by no means diminished. His first catch was made soon after his arrival and he beamed with delight on landing a game speckled beauty weighing about three pounds.

In anticipation of Mr. Cleveland's visit not a fly was cast this season in one branch of the Salmon river, which runs through the Davidson preserve.

GUESTS OF NIPPON CLUB.

Function Held Was Japanese in Every Respect.

New York, July 15.—Admiral Yamaoto and Ambassador Aoki were guests of the Nippon club at a dinner Friday night.

The function was Japanese in every respect. The food was Japanese, the music was of Japanese and all the speeches in Japanese. There was not a person who was present that was not a Japanese and everything that everybody said had to do with the glory of Nippon.

Most of the members of the Nippon Club are young men and when Admiral Yamamoto got up he proceeded to give them some good advice about perseverance and strict attention to business. Not once did he refer to the American-Japanese.

Little Boy Kills His Mother.

Birmingham, Ala., July 15.—Mrs. H. W. Veitch, wife of a well-known Bessemer citizen, was fatally shot by her little son late Friday afternoon. The mother had called the boy to come into the house. He was carrying a target rifle and stumbled and fell at the gate, discharging the weapon. The bullet struck Mrs. Veitch [illegible] standing in the door [illegible]

RICHARD DEBOSE HAD HIS NERVE

Youthful Colored Man Meets Acquaintance and Fires at Him.

VIDAL MITCHELL THE VICTIM

Boy Met Vidal on Sidewalk, Who Accosted Him Cleverly, But Received in Return a Bullet-Hole in Rim of Hat—Offender Made His Escape.

As a result of a boisterous onslaught on the part of Richard DeBose, colored, seventeen years of age, upon the person of Vidal Mitchell, another colored lad possibly three years younger, in which DeBose is said to have put a bullet-hole through the rim of Mitchell's hat without provocation, the officers are looking for DeBose, who made his escape soon after the report of the revolver was heard. Naturally, Mitchell, who was looking for no trouble, was frightened to death at the time, and sunk down in the street like a limber dishrag, so outdone was he by the sudden attack, as he claims it was made.

And all this trouble occurred about 7 o'clock Sunday night, when the streets were full of people going to church; and notwithstanding that it occurred on one of the most publicly-traveled streets of the city occupied by colored people, being West Church, between Arredondo and Fifth streets, it appeared that those who witnessed the tragedy were paralized, and strong men who could have easily held the perpetrator permitted him to escape in the darkness without an apparent effort to apprehend him.

Young Mitchell states that there was no trouble, and never had been, between himself and DeBose, with whom he was well acquainted. He stated that while he was walking along the pavement he met DeBose and spoke to him pleasantly, but instead of DeBose answering him civilly the boy approached him, drew a big, ugly-looking gun without a word, and deliberately fired into his face, the ball passing through the rim of his hat.

DeBose has not yet been captured.

REPLY TO EX-GOV. FLEMING.

An Old Veteran Dislikes His Position on Pensions.

Editor Sun: I observe in a recent issue of your paper an article from our highly esteemed former Governor, Gen. F. P. Fleming, in opposition to the new pension law. He says: "I presume none will question my loyalty to the Confederate veteran." As he did not use the three "s," it seems that some one individual is receiving that loyalty—maybe the ex-Governor himself. Who knows? Be that as it may, there is a great difference in my case and his, as I have been pleading for money and the honor that goes with it for the past five years, and have not as yet received either. The ex-Governor bucks like a bronco because the servants of the people saw fit, in their wisdom, to give each and every one of the old veterans a pension, regardless of property qualification. It seems that the ex-Governor can see in the new pension law nothing but the financial side. Now it seems to me there are other considerations far more valuable to all real patriotic veterans than all the money; one is the thought of being honored by so patriotic a set of men, the most of whom have come upon the stage of action since we came out of the war, and who composed the last Legislature. I say this act of those men should fill the heart of every veteran with gratitude, be he rich or poor, and he should accept what the State offers.

Now, Mr. Editor, as you know, there are kickers in all walks of life, and it is not surprising to find one or more kicking against the new pension law, especially if a fellow has more of this world's goods than he knows what to do with. Some folks kick from habit, and some kick so as to be equal to a jack—but I do not think you will find a Vet. who served all through the Civil war kicking against the new pension law. By the way, the ex-Governor speaks of the first pension act in the State, which was passed in 1885; well, everyone knows that the State is better able now to give each and every one of the veterans one hundred dollars than it was in 1885 to give sixty dollars per annum to only those who were totally disabled, as there were many of that class at that time.

I do not think the ex-Governor should be so hard on the last Legislature by saying that in his opinion this pension law is wrong. Now it seems to me that the last Legislature acted along the same lines that former Legislatures since 1885 have acted, and that was to stretch the pension laws just as far as the prosperity of the State would allow. I do not think any fair-minded man should find fault with any pension laws passed yet.

Now, Mr. Editor, don't you think if the ex-Governor would stop kicking and condescend to take the first quarter, which would be $25, and go and divide it among those old vets at the Home where he has lavished so much of his time, such an act on his part would make his heart feel like he had swallowed a Texas ham? Someone in the Bible said Paul's learning made Paul mad, and he might have added that great riches make some folks act very strange. It is altogether out of the ordinary for one to be so rich and so honest as not to accept that which is honestly and in good faith offered him.

The visitors were in one naptha launch, and Mr. Best and his party in another. The boat containing the visitors became fouled on a pile ashore some distance above the dam, and Mr. Best went to assist them, when the engine of his launch broke down and the boat containing nine persons drifted toward the dam without an oar to stay them.

When the boat reached the dam it was drifting broadside and as it went over, turned turtle, spilling the occupants.

OFFICER WALKER KILLED A NEGRO

Officer Was in Act of Arresting Gordon for Selling Liquor.

IS SAID GORDON RESISTED

He Was About to Get the Best of the Officer, When the Latter Fired Two Bullets Taking Effect—Verdict of the Coroner's Jury.

Information has reached this city of the killing of Will Gordon, a negro, by Deputy Sheriff I. T. Walker of Gainesville, the tragedy having occurred at Newberry Saturday morning.

From the information that could be secured, it appears that Gordon was accused of selling liquor in violation of the law. The matter was reported to the authorities, and Officer Walker was dispatched by the sheriff's office to sift the case down.

Walker, it is said, went to Newberry and succeeded in purchasing liquor from the man, and after the negro ascertained that Walker was an officer of the law and proposed to place him under arrest, he resisted fiercely, which compelled Walker to shoot him.

It is said that four shots were fired, two taking effect, from the result of which Gordon died in a few moments.

Deputy Sheriff Walker was in the city for a few hours Sunday but returned to Newberry in order to be present at the coroner's inquest, which was held Monday morning, the verdict of the jury being to the effect that Will Gordon, the deceased, came to his death by gunshot wounds at the hands of I. T. Walker.

Mr. Walker, who returned to the city at noon Monday, stated that he regretted very much the necessity of the action, which he felt he was compelled to take to preserve his own life.

A preliminary hearing will be given before County Judge H. G. Mason within the next few days, although the date has not yet been set.

Officer Walker has made himself very popular since assuming his duties as Sheriff Fennell's office deputy, and this incident is regretted by his friends.

BASEBALL TOMORROW.

The Gainesville and Starke Teams Will Play for Championship.

The Gainesville and Starke teams will meet on the local field tomorrow afternoon, in what will probably be one of the best baseball contests seen here in some time. In order to encourage attendance, especially among the ladies, a handsome sterling silver souvenir will be given to the lady holding the lucky ticket. These tickets will be distributed at the gate.

Come out and encourage the boys by your attendance, and show them that you are back of them both in spirit and in act. They are trying to provide some amusement during the dull summer months and if you will honor them with your presence it will be highly appreciated.

Starke is coming here under what is practically a guarantee, so it will be necessary to have a pretty good crowd at the game in order to meet it.

Tickets will be sold around the streets today and tomorrow.

DEATH OF MRS. ECKMAN.

Sad Ending Sunday Morning of Bride of Less Than Three Months.

One of the saddest deaths to occur in this city for some time was that of Mrs. P. G. Eckman, the devoted wife of one of Gainesville's well-known young men, and a bride of less than three months, having been married the latter part of April.

This death was very sudden as Mrs. Eckman was not taken ill until Saturday night, death following in a few hours.

The remains were taken to Pierson, the former home of deceased accompanied by the distracted and heart-broken husband, where the funeral will be held.

Mr. Eckman has the sympathy of this entire community in his hour of trouble.

The Smile

That won't come off appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face? If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S——, Blackwell, Okla., writes: "My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since." Sold by W. M. Johnson.

LIGHTNING RENDERED LADY UNCONSCIOUS

Played Many Pranks Around Kitchen Where She Was at Work.

WAS HARD TO REVIVE HER

Required Several Minutes' Work on Part of Husband to Bring Her Back to Her Normal Condition—Congratulated by Her Friends.

The lightning on Wednesday afternoon, during the severe storm which swept over this section of the State, played many pranks in the kitchen of W. E. Smith, who resides about three miles east of the city, with the result that the good wife of Mr. Smith, who was in the kitchen preparing the evening meal, was severely shocked, and was rendered unconscious for some time, being finally restored by hard work on the part of her husband. Her friends congratulate her that the trouble was not more serious.

SANTA FE ITEMS.

Bumper Cotton Crop Promised. Damages by Lightning.

Santa Fe, July 15.—Never in the past has the prospect for a good yield in cotton been better than it is this year. The weed is generally healthy. Owing to the continued drought the farmers succeeded in cleaning out the grass, and if the heavy rains do not cause shedding you can lookout for a bumper crop.

On Monday afternoon of the 8th a severe electrical storm passed over this section, doing considerable damage. C. W. Stephens lost three cows by lightning and we are informed that Mr. Clark lost three hogs by lightning, and many trees were uprooted.

Capt. W. R. McGregor had the misfortune to lose one of his fine pointer dogs. It is supposed by the symptoms that its death was caused from eating potash. He also had another that was bitten by a large rattlesnake, but by close attention the dog is out of danger.

Captain J. H. Barry and W. D. Holder have each had the misfortune to lose a valuable horse in the past two months.

Col. A. Lee Humphries, one of Live Oak's brilliant attorneys, was a guest of W. R. McGregor last week.

The Brown-Jennings Hardwood Co. is shipping large quantities of hardwood from here now.

On Sunday, 7th inst., near Bland, a young negro instantly killed a negro girl because she refused his company. The murder was committed while the girl's parents were at church. The girl was cooking dinner when the brute entered the house, took her father's gun and deliberately shot the girl, laid down the gun, made his escape and had not been captured up to this writing. The girl's father's name is Irvin and lives on the Stroble plantation, two miles south of Bland. He has the name of being an honest and industrious negro.

Minister's Sons Drowned.

New York, July 15.—The oldest and the youngest sons of the Rev. Emil Dahlman, pastor of Zion Reformed Evangelical church of Buffalo, were drowned in Lake Erie, off Angola, Friday, and another son who was sailing with them had a narrow escape. Their sailboat was capsized owing to the heavy sea and the strong wind.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, [illegible] something if the head is [illegible] scant hair. Scant and falling hair, it is now known, is caused by a germ that burrows into the scalp to the roots of the hair, where it saps the vitality. The little white scales one sees, they are in burrowing are called dandruff. To cure dandruff permanently then, and to stop falling hair, the germ must be killed. Newbro's Herpicide, an exhaustive research of the chemical laboratory destroys the dandruff germ and of course stops falling hair, promotes luxuriant growth. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

Editor Johnston of The Apalachicola Times is one of the best paragraphers in the State. His "squibs" are timely and to the point.

The Lakeland News is now an eight-page, six-column newspaper, and otherwise materially improved. We congratulate The News upon its substantial evidence of prosperity.

The Titusville Advocate, whose editor is a native of England, says: "Few persons in the United States know that the original of Dickens' Little Dorrit is still living. She is Mrs. Mary Ann Cooper of Ealing, England, and is now over 90 years old. Her father and Dickens were close friends, and as a child he gave her the nickname of Little Dorrit. The adventures of the Little Dorrit of the book are entirely fictitious, however, and it was in name only that Mrs. Cooper was really the heroine."

The forest question involves the two great questions of wood and water. Wood is a prime necessity. Our population is rapidly increasing, while our wood supply is more rapidly diminishing. We are consuming wood three or four times as fast as our forests are producing it. Unless radical changes are soon made in American methods of forestry, a wood famine will assuredly ensue. Forest cover on mountains and hilltops is indispensible in holding back rain water, and maintaining equal stream flow. Denuded hillsides mean an alternation of destructive floods and droughts.

The Alachua Post is informed that The Sun advocates improvements for the entire county. It is a COUNTY newspaper, and the liberal support given it by the people of every section demonstrates this fact. Hard roads should be constructed in every portion of the county, but no more taxes should be wrung from the people than can be legitimately expended each year. What we contended for was, that inasmuch as the fine and forfeiture fund could be transferred to other funds, county taxes should be kept down sufficiently to make up for the 1½ mills increase in State taxes. The State and county tax for 1907, including the sub-school district tax of three mills, is 21½ mills, an increase of 1½ mills over last year. Don't you think 20 mills would have been sufficient, Bro. Waldron?

The following comparison of temperature from The Times-Union is commended to the perusal of our Northern friends who labor under the impression that the heat in Florida is beyond human endurance during the summer months: "That Florida is one of the coolest States in the Union is conclusively shown by the daily weather reports. Wednesday the hottest temperature of the day was from 92 to 94 degrees at ten stations all north of this State, and only 90 at Jacksonville and Tampa, 88 at Jupiter and Key West. Several Northern cities were as warm as the two Florida points first mentioned with the disadvantage that the nights there are not cool as they are in this State. One day last week when it was 96 degrees for an hour in Jacksonville it was 102 degrees at four points outside this State. The night following that day the temperature in this city was down in the 70's."

A DEEP LAID PLOT.

The Tallahassee Sun of the 13th inst. contained the much-advertised sensational article which Editor L'Engle has promised his readers for several weeks. He claims a conspiracy was entered into between Peter O. Knight, one of the leading lawyers of Tampa, and W. F. Stovall, editor of The Tampa Tribune, to remove him from Tallahassee during the session of the Legislature and force him to trial in Manatee county on the charge of criminally libelling John A. Graham, and also charges that Judge Stewart, of the Manatee county court, was a party to the conspiracy. That is about the purport of the article, or that part of it which appeared in the copy of the paper received at this office, and L'Engle prints purported photographic copies of telegrams (which he claims were "extracted" from the telegraph office at Tallahassee) to substantiate his charges. If the published telegrams were exchanged between Knight and Stovall it would make a bad showing for them and others involved, but each one involved in the alleged conspiracy promptly denounced the telegrams as forgeries, and L'Engle's story, which was written by his associate editor, J. H. Reese, as a lie. Referring to the matter in Sunday's issue, The Tampa Tribune says: "L'Engle will be prosecuted for his libelous statements in the criminal court of this county. Yesterday Colonel Knight and Editor Stovall made affidavits showing the false and malicious character of the publication, which will be presented to County Solicitor Raney, in order that he may file information against L'Engle for criminal libel."

Those who are acquainted with Peter O. Knight credit him with too much sagacity, if he had been a party to such a conspiracy as he is charged with having entered into, to have sent the telegrams which it is claimed he sent. Wallace Stovall, too, showed less sense than his acquaintances credit him with if he sent the telegrams purported to have been sent by him to Knight.

The outcome of the matter will be awaited with great interest by the people throughout the State.

An appeal has been made to the President, and he is carefully considering it, for the investigation of the two big telegraph companies with a view to Government ownership, under the Postoffice Department, or on the same basis that the railroads are now overlooked by the Interstate Commerce Commission. The telegraph is as much a part of modern business life as is the postoffice. It is more of a public service corporation than any other institution in the country except the railroads. Considering the immense dividends paid by the commercial telegraph companies, even on their heavily watered stock, it is certain that the public could be given telegraph service by the Government at something approaching the present postal rates, and still leave a margin for profit and depreciation. Government ownership may not be desirable, but if the present strife keeps up between the operators and the companies there is a fair possibility that the telegraph may be taken over by the Government as a measure of public protection. One does not hear of strikes in the postal service and their elimination would be a great thing for the business public.

The Alachua Post has been revived and made its reappearance last Saturday, with A. G. Waldron as editor and owner. The Post is published in one of the most fertile sections of the best county in Florida and The Sun trusts that the publisher will meet with the support his enterprise merits.

The Three Browns.

Judge Jones—He's All Right.

There is one thing about Judge Minor S. Jones. He is boss of his court, and will have his orders and rulings obeyed, even if someone has to go to jail as a consequence. If there were more judges of this calibre there would be better courts and better law and order.—Miami Metropolis.

Fierce Fighting Predicted.

The advocates of the proposed Atlantic, Palm Beach, Pinellas, Eden, Seminole and Richbourg counties in the next Legislature would do well to form a defensive and offensive alliance before they start for Tallahassee, as the signs indicate there will be fierce fighting over the proposition to create these counties.—Pensacola Journal.

Magnanimous Fred Myers.

We understand that, in view of the fact that both United States Senators have endorsed Judge E. C. Maxwell for the judgeship, and the improbability of securing the appointment of a Democrat without united action, Mr. Myers has requested his friends to proceed no further in his behalf, notwithstanding the very flattering support that has been tendered him by members of the bar at Jacksonville and other places.—Tallahassee True Democrat.

Would Make Good Governor.

Writing from Micanopy, a correspondent suggests the name of Mr. John C. L'Engle of Jacksonville for Governor and says: "Talk about your men for Governor, what is the matter with the Hon. John. C. L'Engle of Duval? He is a man that would fill the bill, and would certainly give us a good, clean administration. We would like to see a successful business man, and that is what we need at the head of affairs. And he has a genuine backbone. One of the right sort."—Times-Union.

You Deserve It, John.

Many compliments were given us on last week's issue of The True Democrat, and of course we appreciate the fact that our efforts to make you a neat, clean and interesting home newspaper are appreciated. Support and sustain us with sufficient patronage to warrant it, and we will endeavor to give you one just like it every week, and nothing would do more to push and keep Tallahassee and Leon county in the front ranks. There is no over estimating the good work the right kind of a newspaper does in its local field.—Tallahassee True Democrat.

Chas. Finley, an employe of the Southern Bell Telephone Company, was killed by an electric wire which had become crossed with the telephone wire in Jacksonville last Saturday, 2300 volts going through his body. Deceased was an exemplary young man 24 years of age, son of Hon. C. A. Finley of Lake City, secretary of the Florida Senate, and a grandson of the lamented Gen. J. J. Finley. The parents and other relatives have the deepest sympathy of hundreds of friends throughout the State in their sad bereavement.

NEITHER COUNTRY DESIROUS OF WAR

But President Roosevelt Is Overjoyed At The Display.

NEWSPAPERS GIVING SUBJECT

As It Will Help Him to Induce Congress to Vote Necessary Appropriations for a New Fleet of Battleships for the Atlantic.

(Special Correspondence.)

Washington, D. C., July 15.—As news of real importance is scant in the dog days we are being regaled with the prospect of war with Japan. But as neither the Japan Government nor the American people are spoiling for a fight with each other about a comparatively trivial matter, there will be no war. But President Roosevelt is overjoyed at the display the newspapers are giving the subject, as it will help him to induce Congress to vote the necessary appropriations for a new fleet of battleships for the Atlantic. The steel trust, which will supply the material, and the shipbuilding trust are likewise interested in the building of an Atlantic fleet, and the standpatters, who fear the surplus revenue will be used as an argument for tariff revision, are anxious for large appropriations. So we will hear more of the war scare until Congress is coerced into voting new battleships.

No doubt many people have been surprised at the collapse of the Roosevelt anti-railroad campaign before anything has really been accomplished, but that should not be a matter for wonder when it is considered that Mr. Roosevelt never hangs on long to one job, but better likes the excitement that new projects offer. Then, he has discovered that the Legislatures of most of the States have taken the bull by the horns and passed railroad rate reduction laws which have discounted the puny effect of the Roosevelt rate legislation. Then again I am assured, on the highest authority, that the administration project is to nominate Secretary Cortelyou for President because the corporations and the Wall Street financiers are willing to furnish the necessary campaign funds to elect him, which is the strongest reason for letting up on the railroads. Yet, Mr. Cortelyou would be acclaimed as the residuary legatee of the Roosevelt strength and is supposed to be ready to carry into effect "my policies"—whatever they are. But it is still some time to the nominating convention and the unstable boss may at any moment pick up a fresh man, especially if there appears to be the same lack of enthusiasm for Cortelyou as there is for Taft. The President would end the whole matter by saying he would accept a renomination, but his election night promise, in which he declared that to again be a candidate would virtually be to run for a third term, prevents him. Undoubtedly President Roosevelt would lose a large contingent of his own party if he was a candidate for a third term, and the votes of misguided Democrats, who would be mostly confined to those in the Western States, would not give him an increased electoral vote. The fact is the Republican leaders are much divided upon what to do and are working at cross purposes.

If the Democrats succeed in uniting on a candidate, whether he is generally known or not, they would be successful, for there are many reasons why the Republicans will not pull together, whoever they nominate. If their candidate is a known supporter of the Roosevelt faction, there will be many Republicans who will not support him and if he is a "reactionary" there will be others who will vote against him or refuse him active support. Leaving our Republican friends to meditate on their own troubles, Democrats, who have troubles of their own, can overcome them by improving their organization and urging measures rather than men.

AWFUL ITCHING BURNING SPOTS

Formed on Legs and Exuded a Watery Matter—Tried Soaps to No Avail—Kept Ankles Bandaged Over a Year Until Skin Was Made Smooth and

TORMENT WAS STOPPED IN 3 DAYS BY CUTICURA

"In December 1903 I had a blood spot about as large as a silver dollar on my left shin about three inches above the ankle and in about two weeks the same kind of a spot came on the right shin. I did not know but it was poison from some black stockings but my wife said it could not be for she had washed them thoroughly twice. The spots spread until they were some two inches across. Then my shins and under my ankle bones commenced to break out in a fine rash which extended about halfway to my knees. The burning and itching were something terrible and later the rash began to exude a watery matter. Finally it went to my elbows and above and below them. I doctored with two doctors but it did no good. I kept my ankles bandaged for over a year. One day a friend of mine said he believed the Cuticura Remedies would help me. I sent for them and in three days after using the Cuticura Remedies there was a complete change. The skin cleared up smooth and the itching stopped. I am still using the Cuticura Remedies for, once a week or so, some little spot will break out in a fine rash and commence to itch. But washing with Cuticura Soap and putting on Cuticura Ointment drives it all away. I am seventy-one years old to-day. Geo. N. Westcott, Postmaster, Ceylon, N. Y., Apr. 29, 1907."

THE NEW PENSION LAW.

Senator James E. Broome Replies to Ex-Governor Fleming.

Senator James E. Broome of Gadsden county, chairman of the joint committee on pensions during the past session of the Legislature, replies to Ex-Governor Fleming's criticism of the new pension law, which criticism was reproduced in The Sun as follows:

"Editor Times-Union: In your issue of the 7th appeared an article over the signature of Ex-Governor F. P. Fleming, criticising the Florida Legislature of 1907 for passing a pension law, leaving out the property qualification. Gov. Fleming tells us that previous Legislatures of Florida gave us pension laws and adds: 'But there was always included in these bills a property qualification' and continues his argument against the bill for the reason, principally, that the property qualification was not inserted in the present bill. Mr. Editor, I am pleased to say that every member of the pension committee, consisting of fourteen, nine from the House and four from the Senate, were unified and proclaimed in no uncertain tone that they would never consent to longer subject Confederate soldiers to the mortification of appearing in the role of a pauper to obtain a pension. Such would be degrading to the soldier and discreditable to the State. The committee was also unanimous in presenting a bill which could be properly recognized as a testimonial of their country's gratitude for services willingly and nobly rendered, believing that a soldier's pension should be based on voluntary and meritorious service, regardless of wealth or poverty, and should be prized as the Frenchman prizes the cross of the Legion, or the Englishman the order of the Garter.

"Mr. Editor, it had been my pleasure to know Gov. Fleming for forty-five years, a gentleman for whom I entertain the highest esteem and regard; once with whom I soldiered on the fields of Virginia during the 60's, and I can consistently declare that a truer, nobler, braver and more loyal soldier never drew blade from scabbard, and for so valiant a soldier as Gov. Fleming to oppose the bill for the want of a property qualification is beyond my limited comprehension. Let us remember, Mr. Editor, that these valiant, patriotic and intrepid sons at the tap of the drum, volunteered their services in a most righteous cause, rushing to the front, ready to pour their libation upon the altar of Southern rights, and how any patriotic citizen can object to the Legislature giving them more liberal treatment I am at a loss to understand. In conclusion, I wish to say that as chairman of the Senate pension committee, both in the committee and on the floor of the Senate, not only was my vote given, but my voice was heard in favor of the passage of the most liberal pension bill ever given to Confederate soldiers by any previous Legislature of Florida, and for my acts I have no regrets to express or apologies to offer, but proud indeed of my work.

"JAMES E. BROOME,
"Chairman Senate Pension Committee.

SENATE PASSED CLOSING BILL.

The Alabama Anti-Saloon League Scored Triumph.

Montgomery, Ala., July 15.—The Anti-Saloon League scored a victory before the Alabama legislature Friday when the early closing bill passed the senate by a large majority, and the bill prohibiting shipment of liquor into prohibition counties was taken from the adverse calendar. The debate indicates that it will pass.

The early closing bill provides that saloons in Montgomery, Mobile and Birmingham must close at 9 o'clock p. m. In cities of the second-class between 9,500 and 25,000 population, they close at 8 p. m., and under 9,500 at 6 p. m.

In the house Mr. Sanders, a member from one of the country counties, introduced a bill to prevent automobiles running on the public roads in the state. As there are several thousand machines in the state, it is wondered where they will run.

WOMAN GUARDED PROPERTY.

Mrs. Summerlin Held Off Builders With a Shotgun.

Atlanta, July 15.—Camping on the disputed territory with a shotgun, Mrs. Lizzie Summerlin held off a whole gang of carpenters Saturday morning who desired to build a fence which Mrs. Summerlin thought would interfere with her claim to the property.

Robert F. O'Shields, who holds a deed to a 100-foot lot at Holderness street and Lucile avenue, West End, sent a force of men Saturday morning to build a fence on the lot. When the carpenters arrived they found Mrs. Summerlin, who is about 40 years of age and determined, sitting upon the lot in question and armed with a shotgun. She expressed her intention of hold the fort, and the carpenters departed.

Bailiff Parker, of Justic Orr's court, went to the seat of war armed with a warrant sworn out by Mr. O'Shields.

BRIEF DISPATCHES.

Five Swiss Alpinists have scaled th chighest of unclimbed peaks that of Pioncione, Cavagnoly in Ticino, which is 9,000 feet high. Many previous attempts failed owing to the precipitiousness of the peak.

The fraternal society of the deaf which closed a weeks national convention at Cincinnati, O., elected its officers and the next convention will meet in Louisville, Ky.

The first of the Glidden touring cars to arrive in Chicago was that of Montgomery Hallowell, of Buffalo, and his party of three.

Mark Twain (S. L. Clemens) who has been in England, has sailed for home on the Atlantic transport line steamer Minnetonka. A great crowd of admirers at the station kept the American humorist busy shaking his hands and gave him a rousing cheer as the train left the station for Tilbury.

PROHIBITION BILL

Is Passed by Georgia Senate by Vote of 33 to 7.

Atlanta, July 15.—The Hardman-Covington prohibition bill was passed by the senate Saturday morning at 11:30 o'clock by a vote of 33 to 7.

The senators voting against the bill were Brock, Felder, Gordy, Griffin, Johnson, Maddox and Stephens.

Telegraphers Ready for Strike.

New York, July 15—It is announced that all the members of the Commercial Telegraphers' union in the city, 2,600 in number, in both the Western Union and the Postal offices, have been notified by National Secretary-Treasurer Wesley Russell to hold themselves in readiness to go out at any moment. Everything depends on the success or failure of United States Labor Commissioner Nill in bringing to an end the trouble in San Francisco, Calif.

German Count's Opinion.

Berlin, July 13.—Count Von Reventlow, formerly in the German navy and now probably the foremost journalistic writer on naval subjects, has written a half-page article on the quality of the American corps of officers and men. He does not agree with the judgment that the American officers are mostly too old to possess energy, too inclined to comfort and quiet and extremely self-satisfied

Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c and $1.00. Sold by W. M. Johnson.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Doctor Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.
